

## Scam Warning

---

Surrey Hills Country Gardens has been in the area supposedly selling off excess stock from Stithians Show. They show you a brochure with highly inflated prices (about three times the online price) and also their website also displays these prices. They then offer a deal, which is still highly inflated for whatever they have in their van. Their van is marked Surrey Hills Country Gardens, however the Ltd company is dissolved, and as a dissolved company they are acting illegally. They are highly plausible and their paperwork is all linked to places that have never heard of them.
